Private Transport Permission Note

Dear Parent

The Department of School Education and Training sets out conditions which must be complied with before senior students are permitted to use private cars to transport themselves to school and other school related activities.

At Macksville High School students do not drive themselves to school organized activities. Transport arrangement will be catered for by the organizing teacher.

Students who have a drivers licence will be given permission to drive themselves to and from school. It is a requirement that student passengers and driver will have permission from their parents or guardians.

Please complete the sections below. Your child must then give the permission note to their Deputy Principal.

Please note that a student who drives in a dangerous manner or who ignores the rules may have the privilege of driving to school withdrawn.

Mr. Paul Holding
Principal
Macksville High School

Driver’s Licence Number: _________________
Type of Licence: _________________
Date when Licence granted _________________
